VIA-UJI

Motor

El departamento de motor se encarga de optimizar el rendimiento del mismo y de cumplir con las restricciones marcadas por la normativa. El proceso se realiza por medio de la ECU así como por medio de modificaciones físicas en el propio motor y en el sistema de admisión y escape.

Aerodinámica

El departamento de aerodinámica y carrocería investiga la aerodinámica de la carrocería del monoplaza para reducir drags, y por tanto mejorar así la eficiencia del vehículo, como para mejorar la interacción con la carretera y ganar agilidad.
